BRIDGE JOINT REPAIRS UNDERWAY ON I-93 IN LONDONDERRY
NORTHBOUND EXIT 5 ON-RAMP WORK REQUIRES LANE CLOSURES

The New Hampshire Department of Transportation announces bridge joint repair work is underway today (January 25) on the Interstate 93 northbound on-ramp at Exit 5 in Londonderry.

This work will require lane restrictions both on the on-ramp on the main line of I-93 today from 9:00 am to 2:00 pm.

Warning signs, cones, and uniformed officers are assisting motorists through the work zone. Motorists should proceed with caution while driving through the work zone, as both bridge maintenance workers and equipment are on the highway.
